FIREFIGHTING EQUIPMENT

POK INSIGHT

Dear Readers,

The year is soon ending, but POK® is always present either by visiting its customers or by welcoming them at its production site.

Increasing the number of partnerships, strengthening the links between POK and its distributors, listening to its markets, in France and abroad, is essential to us, to be able to improve our service to our customers and respond quickly.

Happy reading.

Pascal Cambournac International Sales Director

POK Welcomes its Partners

We have recently welcomed some of our key partners who are working hard

at promoting POK's products. It is a unique opportunity for our distributors to strengthen their knowledge of the company, its production facilities and its products.

POK is Meeting its Partners

It is also important for us to visit our partners who are welcoming us for their sales team training day. This was the case of the company ARMAKSA in Turkey and BRANDSCHUTZ ETTISWIL in Switzerland. Both teams enjoyed a thorough training on POK's new range of products, and practical hands-on.
