

**POK**  
FIREFIGHTING EQUIPMENT

**POK INSIGHT**

**HAPPY NEW YEAR**

**BONNE ANNÉE**

**2019**

## **Thank You**

We would like to thank, at the beginning of this year, our customers for their loyalty, our partners in France and abroad for their daily work and all the **POK®** teams who have made a considerable effort to help us serving our customers.

To all of you, we wish you an excellent year full of joy, health and success.

**Pascal Cambournac** - International Sales Director

**A state-of-the-art technology**

How can **POK** manufacture more than 600,000 quality, reliable, and long-lasting products every year?

Thanks, of course, to the quality of our workforce and the numerous quality controls carried out at the different production phases, But also thanks to an outstanding production tool.

Between **Mazak** - world's leader in machine tools - and **POK**, there is not only a supplier-customer relationship, but a genuine partnership.

**POK** has 24 multi-axis CNCs. The first one was introduced in 1993. By 2015, **POK** had introduced three fully automated Quick Turn Nexus 250-IIIs. This makes **POK** the most modern and efficient firefighting system manufacturing company. You are more than welcome to visit our production site.

## Remote controlled monitors for Morocco

We build strong relationships with our direct and indirect customers. Our partner **PROTEC** welcomed us in Morocco to visit one of our main final clients : the **OPC** (Office Chérifien des Phosphates). The **OCP** - which was founded in 1920 - is one of the world's leading producers of phosphates and operates six major sites for the extraction and processing of this material. It is mainly used for the manufacture of fertilizers.

Thanks to the precious help of **PROTEC INCENDIE**, **POK** demonstrated on the three largest **OCP** sites the **POK** DN65 latest generation remote-controlled monitor, with a flow rate of 3,000LPM. It is perfectly suited to the protection of these very sensitive sites. We thank Ismail Slaoui for his warm welcome and efficient actions.

## **Reward for POK**

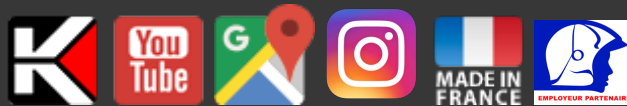

**POK** has been awarded the 2018 Export Trophy by the Champagne-Ardenne International Chamber of Commerce and Industry. This prize was granted at the end of November to Alexandra Grandpierre, General Manager of the Company.

This award represents **POK's** energy and confidence in the future.

**POK**, once again, renews its best wishes to all of you for 2019 and thanks you for your trust.
