

In this edition, we are highlighting the promotional tour of our Jupiter Robotic Monitor in the Czech Republic. Selling can be challenging and we are full of praise for our local partners for their good work and all the efforts such as these. Click on the video link below to have a look at our latest technology **POK** robotic monitor.

THE JUPITER TOUR

Thanks to the efforts of our Czech partner **PROITZ**, our Jupiter Robotic Monitor has been shown to our customers and prospects in the Czech Republic. This is a good example of the involvement of our partners who do their best to connect **POK** with customers across the Europe and worldwide.

During ten days the **PROITZ** team was busy presenting all around the country: Ostrava, Brno, Rychnou Nad KENZNOV, Litvinov, etc. Congratulations to **PROITZ**.

POK IN THE FIELD

POK has recently conducted tests with the Bouches du Rhone French departement fire brigade of Port Saint Louis (France). A low foam expansion gun (Powerfoam, ref. 24046) was installed on a Gimaex firetruck.

The objective of François Hery, **POK** Sales Region Manager, was to measure

the performance of the **POK** system.

These tests showed:

- the high performances of a long range water throw with a limited dispersion of the water,
- no pressure constraint,
- a significant increase of the water range.

The performance of the **POK** system is all the more remarkable as the tests were carried out with a shore wind of about 15 knots.

POK AUGUST BREAK

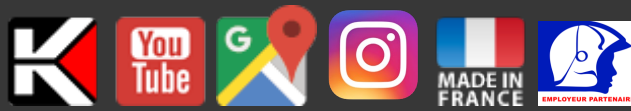

Août 2019	
n°	Lu Ma Me Je Ve Sa Di
31	1 2 3 4
32	5 6 7 8 9 10 11
33	12 13 14 15 16 17 18
34	19 20 21 22 23 24 25
35	26 27 28 29 30 31

△ FERMÉ / CLOSED
