

### NEW PRODUCT

**POK** is pleased to introduce to you a new-generation product.

This technical solution combines the smallest remote controlled monitor and the S.T.A.C.S. (Smart Truck Active Control System) technology.

**Pascal Cambournac** - International Sales Director

### STACS-COMPATIBLE DN40 !

This is the combination of a modern, efficient and compact monitor and a monitoring system which has already been adopted by many customers. This is the most user-friendly system on the market.

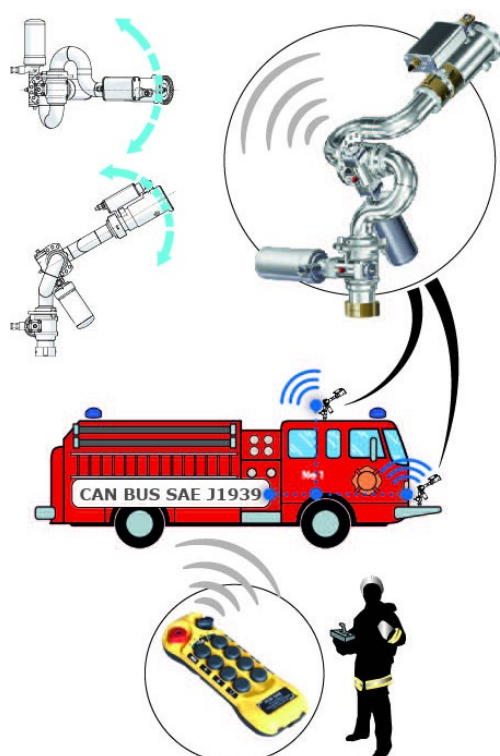

The DN40 monitor:

- highly compact
- in stainless steel
- ultra light (less than 10 kg without diffusor)
- designed to be mounted on the fire-truck front bumpers
- with a flow rate of 1000 LPM
- radio or wire controlled

[Technical datasheet](#)

#### Radio-controlled installation

#### Wired installation

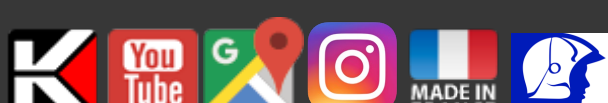

The **POK** STACS solution:

- BUS CAN J1939 compatible
- "plug&play" technology
- adaptable to all types of vehicles
- controls remotely one or more monitors and others systems
- user-friendly
